Trail Description:

This hike starts by following Corridor 7, a main snowmobile trail, on a steady incline south for 3.4 miles to Griffith Lake. Corridor 7 is blazed with orange snowmobile markers. At the northern end of Griffith Lake, the trail intersects with the Appalachian/Long Trail and the Lake Trail. From here the loop continues north (right), following the AT/LT, which is marked with white blazes. The trail travels up and over Baker Peak, ascending over bare ledges, and affords fine views of the Otter Creek Valley, Dorset Mountain, and other peaks in the Taconic Mountain Range. Continuing on, the trail passes the junction of the old Forest Road 30. This section of FR 30 was decommissioned and gated when Big Branch Wilderness was established. The trail continues north, passes the Lost Pond Shelter site, and meets the Old Job Trail, marked with blue blazes, in 1.5 miles. From here the loop turns southeast (right) and in less than a mile crosses Lake Brook on a bridge to reach Old Job Shelter. Following Lake Brook, the Old Job Trail reaches the parking area in 0.9 miles. Please practice Leave No Trace ethics, such as carry out what you carry in. Trail blazing, maintenance, and signage will be minimal in Wilderness Areas. If you stay at Griffith Lake, a \$5.00 per person/night fee, paid to the Green Mountain Club Caretaker, helps maintain the shelter and trails, monitor impacts, and protect vulnerable soil, water, and vegetation.
